Inspector Brooks and Forty Detectives Go to the Track, File 400 Messages and Interrupt the Service to the Layers in the Greater City.

Move Is Declared to Be a Test to Determine Whether the Western Union Favors the Messages for Pool-Room Over Ordinary Commercial Business.

Police Inspector Brooks and forty detectives went to the Brighton Beach Race Track this afternoon and blocked all racing news sent over the Western Union wires by filing scores of messages after each race. Between 2 o'clock and 4 o'clock the police had filed over 400 telegrams and sent a similar number of telephone messages. The pool-room men were frantic over the situation, and what little news they got had to be

tectives were more talkative. They said that complaint had been made that commercial telegrams were being sidetracked by the Western Union in favor of racing messages. No one but the pool-rioms had a chance at the race track telegraph office, it was said. A test was being made, explained

The time of each telegram filed by the police was taken at the track and the men at this end took the time that they received them. So far as could be seen this afternoon no preference was shown by the operators. Each telegram was filed in its turn and all the pool-rooms in town were bro. held up in payment of bets by the delay.

The peoi-room men made a rush for the telephones when they saw how they were being held up, but in each booth they found a detective. It was then that they went outside to send their messages. THEY SAY THEY CAN'T EXPLAIN IT.

mercial nature sent from the Brighton race track to-day. order that it is filed and no exceptions are made to this rule.

If Inspector Brooks laid a trap for the Western Union he probably failed of his purpose, for telegrams were said by the operators to have been sent in the regular order of filing

Commissioner McAdoo when seen at Headquarters at first denied that a police manoeuvre was in progress at the racestrack. "I have received no telegrams." he said.

"But Commissioner," spoke up his private secretary, Mr. Howells, "there is a bunch of telegrams on my desk for you."

Somewhat annoyed by this admission the Commissioner continued: "If anything like that is being done it is simply to test the bons fide of the Western Union being a common carrier. We would do nothing to interfere with the newspaper service from the track."

MEN POSTED IN POOL-ROOMS.

It was learned that the police had men posted in various pool-rooms in New York to note the time that information from the course reached the rooms. These times will be compared with the times of the messages filed by the dete tives, and the police may draw their own conclusions as to whether the Western Union is giving extra tacilities to the pool-rooms. The men are posted at the telephones to see if telephone service is being fur-

All of the efforts which have been made to keep other powers out of the big war in the East may be nullified by Russia's course, which is regarded here as extraordinary. Some put the construction on it that it has been done with the deliberate intention of involving other nations in Russia's losing fight.

The announcement that Admiral Domville has sailed for Alexandria with his fleet for the purpose of policing the Mediterranean and Red Seas and to convoy English vessels is regarded as ominous. The Russian volunteer vessels would have absolutely no chance in a fight with Domville's ships, and the temper of the Cabinet now is such that there would be very little hesitation in treating the Smolensk and St. Petersburg as pirates if they are caught in any more such performances.
